Soloarc

Unmatched Durability and Ease of Use.

MIS Applications

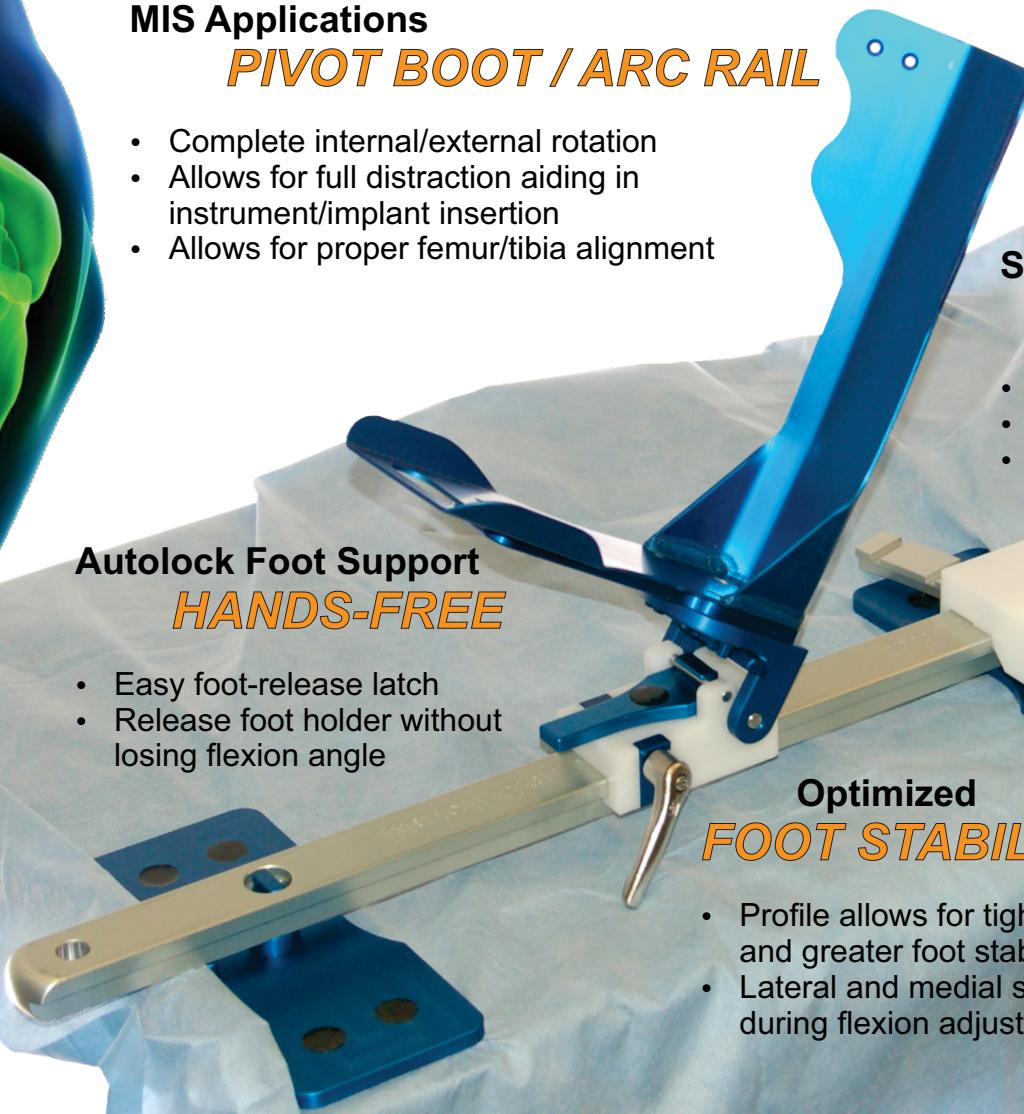

PIVOT BOOT / ARC RAIL

- Complete internal/external rotation
- Allows for full distraction aiding in instrument/implant insertion
- Allows for proper femur/tibia alignment

Autolock Foot Support

HANDS-FREE

- Easy foot-release latch
- Release foot holder without losing flexion angle

Smooth Travel

RAIL SYSTEM

- Full flexion and extension
- Precision adjustment
- Aircraft grade anodized aluminum resists dents and dings

**Optimized
FOOT STABILIZER**

- Profile allows for tighter wrap and greater foot stabilization
- Lateral and medial support during flexion adjustment
